Firebase

INDUSTRY EXPERTISE

Front-end development

Backend, DevOps

SUMMARY

Aspiring Front-End Developer with a passion for creating visually appealing and user-friendly web experiences. Eager to leverage a solid foundation in HTML, CSS, and JavaScript to contribute to dynamic projects and collaborate with creative teams. Proficient in responsive design principles and committed to staying updated with the latest industry trends and technologies. Backed by hands-on experience with personal projects and a strong drive for continuous learning, I am dedicated to making a positive impact in the world of web development.

EXPERIENCE

Freelance Web Developer

📅 12/2022 - 01/2023

- Developed a customized real estate website for a client using WordPress as the content management system.
- Leveraged the "RealEstate" plugin to enhance property listing functionality, enabling the client to showcase properties efficiently.
- Implemented responsive web design principles to ensure seamless user experiences across various devices, resulting in improved user engagement.
- Achieved a high level of client satisfaction, receiving positive feedback for delivering a functional and visually appealing real estate platform..

Freelance ASP.NET Developer

Telcan

📅 03/2023 - 07/2023

- Successfully diagnosed and resolved critical bugs in an existing ASP.NET project, enhancing the application's stability and functionality.
- Collaborated with the client to understand specific SQL Server permission requirements and implemented granular access controls to enhance data security and integrity.
- Provided clear and concise documentation to facilitate the client's understanding of the implemented SQL permissions, enabling them to manage permissions effectively in the future.

Freelance Python Automation Development

Telcan

📅 10/2023 - 12/2023

Created an Automation which Automate Interac e-Transfer extraction from Gmail using Python. Retrieve details, process, and store in a MariaDB database. Efficient tracking of Interac transactions.

Freelance ReAct Wesbite

ReAct NGO

📅 01/2024 - 03/2024

Created a wesbite for the NGO named ReAct on Next.js. Created a small CMS panel where admin can make small changes like change image and text etc.
